The IAATI Board shall review the recommendations and decide upon the successful nominee who will be announced at the IAATI UK National Vehicle Crime Conference in each given year. The runners up will receive a certificate of Commendation.

If necessary, the Awards Committee can outsource their deliberations to industry specific experts to assist them in their deliberations and recommendations for the short list.

Can I self nominate?

What makes self-nomination so difficult? Humility is a virtue that is taught the world over. At a young age, we haven't developed the social skills to talk about our accomplishments — and ourselves — gracefully. Instead, as children we blurt out, "My daddy has lots of money," "I'm better than you because...," or "I have more toys than anyone!"

Our parents and mentors know it's important to squelch this behaviour right from the start or people aren't going to like us — and they were right. The problem is that there wasn't a chapter two in that part of life's lessons, and very few of us ever learn how to reconcile the virtue of humility with the need to promote ourselves later in life. This tug-of-war between showing humility and showcasing our accomplishments is played out daily across the working world.

Currently, this is playing out in IAATI UK's search for nominees for its awards programs, and that needs to change. Too often we hear, I couldn't nominate myself or my team, it just wouldn't be right. There is absolutely nothing wrong with drawing attention to your accomplishments, about which the IAATI UK would have no other way of knowing. So check out the submission date for the award(s) of your choice and enter online at your convenience. Let us be the judge of you or your team or your organisations accomplishments.

Guide to writing an Award Nomination

Award submissions should be made by providing a nomination statement and supporting evidence to demonstrate why the nominee is a worthy winner in their eligible category. Here are some tips in putting together your submission.

1. **Read the category description carefully and identify what the judging criteria are for that award.** Make sure you clearly demonstrate how the nominated investigation / project / initiative meets the criteria.
2. **Provide clear and succinct Nomination Statement about the investigation / project / initiative you are nominating.** The maximum length for the nomination statement is four pages. This is the maximum size, it does not have to be this long, so don't add unnecessary details just to fill pages.
3. In addition to your Nomination Statement you may **include supporting evidence**, such as photos, charts, graphs, promotional material, news clippings, website references, etc. The judges like to have relevant supporting material but the most important point to focus on when preparing any background material and supporting evidence is that it is quality and relevance that matter, not quantity. In fairness to all nominees, the total nomination submission must be less than 3MB in size and the Nomination Statement, should be able to stand on its own from the supporting material, and fully explain the reasons for the nomination.
4. **Structure your nomination.** The nomination statement and evidence should first "wet the appetite" and then "tell a story" that backs this up. For example, what were the results of your investigation / project / initiative? What difficulties did you have to deal with and overcome to get those results? What innovative techniques or strategies did you use to overcome these difficulties. Did the investigation or initiative involve cooperation with multiple organisations?
5. In general nominations will be judged on their demonstration of any or all of the following criteria: innovative methodologies, application of best practice investigation techniques, the complexity of the investigation, and co-operation and involvement of multiple agencies to achieve a result in the fight against auto crime. The number of vehicles recovered or the number of offenders apprehended is not the determining factor other these factors can add extra complexity to an investigation. **Small single vehicle investigations can be just as worthy of an award as larger investigations.**
6. **Sub-sections.** Think about whether you should break up your submission into sections to really make your point, particularly if you are sending in the maximum four pages, to make it easier for the judges to read and understand. Don't be afraid of white space.
7. **Sell you nomination.** Every year we receive a number of very worthy submissions, so you need to spell it out for the judges why your nomination deserves to win. What makes your nomination stand out as an excellent example in it's category?
8. **Proof read** your submission. Make sure it is free from spelling and grammatical errors, and that it flows well to the reader.
9. **Finally**, don't hesitate, get your nomination in now.

IAATI International awards

If your submission has sufficient information and has merit, the IAATI UK shall undertake to place your submission before IAATI International for inclusion in their International Awards program.
